THROES OF
VIOLENT
REVOLT

Rebels Capture Three Towns,
Later Losing Torreon to
Federal Troops

DIAZ HURRIES TO MEXICO
CITY—REBELLION GROWS

Attack on Chihuahua Looked
for; Deserters Shot; Women
Reported Tortured

MONCLOVA, Mexico (Via Eagle
Pass, Tex.), Nov. 22.—After desper-
ate fighting, three Mexican towns,
Torreon, Gomez Palacio and Laredo
surrendered to the revolutionists to-
day. Torreon and Gomez Palacio
were reported as captured by the
rebels last night. The report was
the result of continuous fighting,
in which left the Federal troops still
in control. Severe losses are reported
on both sides.

The heaviest fighting was at Tor-
reon, where millions of American
capital is invested in the smelters
of the Intercontinental Rubber Com-
pany. No Americans are reported
as being killed there. The Federal
garrison at Gomez Palacio sur-
rendered after a stubborn resistance,
then joined the rebels.

Reports from Durango state that
Americans there are subjected to in-
dignities. Railroad men say the gov-
ernment is still in control of Zaca-
tecas, Orizaba, Chihuahua, San Luis
Potosi and Saltillo. The insurgents
are elated and more fighting is anti-
cipated.

TORREON RETAKEN BY
GOVERNMENT TROOPS

WASHINGTON, Nov. 22.—Ameri-
can Consul Ellsworth, at Ciudad Por-
firio Diaz, wires the State Depart-
ment a confirmation of the capture of
Torreon and Gomez Palacio this
morning. He says the government
troops have recaptured Torreon and
are still in control of the town.

MEXICO CITY, Nov. 22.—Presi-
dent Diaz refused to comment on the
report that Mexico City and Chihua-
hua will be placed under martial law.
Fears are felt that the President's
health will be unable to stand the
strain of personally directing the
movements of the Federal troops. He
came to the capital from a health
resort when he was acquainted with
the extent of the uprising.

Government officials generally ad-
mit the gravity of the situation, but
say the insurrection is sectional, not
general. The report that General
Reyes will join the rebels soon is not
denied by the government, although
confirmation is lacking.

The government officials, admitting
the gravity of the situation, blame the
revolution on Madero and his party.
Several wealthy men have been ar-
rested as suspects through correspon-
dence found at their homes. It is ru-
mored they will be summarily ex-
ecuted. It is alleged the wives of the
suspected leaders were tortured to
compel them to reveal the where-
abouts of their husbands.

REBEL LEADER CONFIDENT
OF ULTIMATE VICTORY

MEXICO CITY, (Via Laredo) Nov.
22.—The government officials this af-
ternoon confirmed the reports of fight-
ing in Torreon, declaring the rebels
were routed.

That Madero, the rebel chief, is con-
fident of success is evidenced by the
appointment of Manuel Uruquidí as
lieutenant governor of the state of
Tlaxcala. The document of appoint-
ment seized by the police was head-
ed:

"Provisional Government of the
United Mexican States. The office of
the President of the Republic Num-
ber Three."

It is persistently reported that Gen-
eral Reyes is en route to Mexico.

CHIHUAHUA EXPECTS
ATTACK FROM REBELS

EL PASO, Tex., Nov. 22.—Govern-
or Terrazas of the state of Chihua-
hua, has telegraphed President Diaz
that he expects a rebel attack on
Chihuahua. The War Department or-
dered the garrison there reinforced.
Word that fighting has begun is mo-
mentarily expected.

El Paso is at fever heat excite-
ment today. The border is constantly
guarded to preserve the neutrality
law. Private dispatches state that
the situation in many interior Mexi-
can states is desperate, and the gov-

LOS ANGELES, Nov. 22.—J. W.
Wheeler, the blacksmith who is al-
leged to have shot and killed a woman
known as May Wheeler last night,
lies in a critical condition in the re-
ceiving hospital. He is suffering
from a knife wound in the throat and
a bullet wound in his head, self-inflic-
ted.

Wheeler alleges the woman tried to
kill him. The surgeons state the man
may recover.

CONSTITUTION MAKERS
RUSHING THEIR WORK

PHOENIX, Nov. 22.—A proposition
providing for the segregation of juve-
nile and adult prisoners was formally
adopted by the constitutional conven-
tion.

The proposition advanced by Dele-
gate Webb fixing the state boundaries
was accepted.

The convention is rushing through
its work, eliminating all legislative
matter.

OLD TIMERS
WILL LINE UP

That Will be Some Game at
Lincoln Ground Thanks-
giving Day

On Thanksgiving Day a bunch of
old-timers of the Santa Ana High
School are going to play the Santa
Ana High School football team, and
it will be a game worth while. The
old-timers all were known on their
teams as players who could do big
things in emergencies, and it will be
by that kind of work they may de-
feat the practiced eleven of the high
school.

The line-up of the old-timers will
be selected from the following:
Center, Pat Turner; guards, Louis
Robinson, Smart and Whitson; tack-
les, Foot Collins and Cave; ends,
Adams, Tedford, Carden and Burke;
halves, Art Collins and Bob Spur-
geon; full, Eric Stephenson; quar-
ter, Vanderlip.

DOESN'T WANT TO CATCH
HUSBAND WHO RAN AWAY
WITH NEIGHBORS WIFE

Mrs. York of Olinda does not want
to catch her husband, Walter, who
eloped with Mrs. Ortega. She does
not want to prosecute him for aban-
doning her. Evidently her attitude
of mind is this: He has run away,
and since he is that kind let him
"git."

On Nov. 3 Mrs. York went before
Justice Smithwick and swore to a
complaint charging her husband with
abandoning her. With Mrs. York at
the time was Ortega, her neighbor,
with whose wife York ran away. Or-
tega seemed very anxious indeed to
help Mrs. York locate York. The
reason was not so much that Ortega
wanted to catch York as it was that

SAN FRANCISCO, Nov. 22.—Blown
from its course by head winds and
battered by enormous seas, the steam-
er Bear, fifty hours overdue, arrived
from Portland this morning with seven
hundred passengers.

The steamer literally fought her
way to port. Alarm was felt here
throughout the night because the wire-

over-due vessel.

CHIEF GALLOWAY
ASKED TO RESIGN

LOS ANGELES, Nov. 22.—Chief of
Police Alexander Galloway refused to
resign his position yesterday, when he
was requested to do so by Mayor Alex-
ander. Last night Galloway was not
summarily removed by the Police
Commission, because Attorney E. J.
Fleming, to whom the place has been
offered yesterday, declined to accept
until he had consulted his friends.

If a complaint is sworn out this af-
ternoon by Harry E. Dean, former ex-
ecutive secretary, against Galloway
for permitting irregular sale of prop-
erty, it is likely the chief will be re-
moved at a special meeting of the Po-
lice Commission.

ASQUITH YIELDS
TO MOBbing WOMEN

LONDON, Nov. 22.—A mob of suf-
ragettes in the House of Commons
assaulted Premier Asquith. He was
saved from rough handling by the
timely arrival of the police.

The Premier today yielded to the
importunities of the suffragists, and
declared that if he is in power in the
next Parliament he will grant facili-
ties for the consideration of an
equal suffrage bill.

The suffragettes who attacked the
Premier were dispersed, and 150
were arrested and jailed. Asquith
also promised the laborites that if
the Liberals are successful in the
next election he will push legislation
permitting the labor organizations to
use their funds for Parliamentary
purposes. This is regarded as the
greatest labor victory of recent
years in England.

PORTLAND, Ore., Nov. 22.—With
cities drenched, with rivers swollen,
and with the various harbors shelter-
ing disabled vessels, the Pacific
Northwest is experiencing a respite
today from the gales that have been
sweeping over it. The weather bu-
reau, however, forecasts another
storm and danger signals have been
raised on the Columbia river bar.

Thousands of dollars' worth of
lumber was lost when the coasting
vessels were compelled to dump their

SENATOR ELKINS SAID

ELKINS, W. Va., Nov. 22.—It has
leaked out that those connected indi-
rectly with the Elkins establishment
here have received instructions to
keep the home at Hallehurst in order,
as it may be necessary at any time to
bring Senator Elkins back to his sum-
mer home.

It is learned that the Senator is
not improving. It is rumored here
that he is suffering from abscess.

MAY GO AFTER
YOUNG GARCIA

Gov. Gillett Has Signed Papers
to Get Him From
Mexico

Leodora Garcia, who has been in a
Mexican jail for several months
awaiting extradition to this country,
may be brought here within the next
ten days. The charge against Garcia
is that he attempted to kill Luis Man-
zo. Following a gambling quarrel,
Garcia fired several shots at Manzo,
one bullet entering Manzo's abdomen.

That same night Reyes Molino was
killed. His skull was beaten in with
a rock, and the man's body was
stretched across the rails of the San-
ta Fe tracks near Santa Clara avenue.
Leodora's father is charged with
Molino's murder. Leodora Garcia
doubtless was present at the murder.

The two Garcias escaped to Mexico.
The elder has not been caught. The
younger has been held in jail a long
time. Gov. Gillett offered \$100 reward
for the capture of either Garcia, and
the county offered a similar sum.

Extradition papers have been signed
by Governor Gillett and are now in
the possession of the district attorney.
Officers Cervantes and Murray may be
sent after the men. Extradition is
costly, and there has been some hesi-
tancy about incurring the expense to
get the men.

FAREWELL SCENE IN PRISON
CELL WAS PITIFUL ONE

BENTONVILLE PRISON, London,
Nov. 22.—The final farewell of Ethel
Levene and Dr. Hawley Crippen, was
sorrowful and pitiful. It lasted twen-
ty minutes. The girl was hysterical
and fainting and had to be carried
from the cell.

Crippen's request for a private in-
terview was refused. The wardens
were present. Crippen embraced the
girl and kissed her fervently many
times. The girl refused to go when or-
dered to do so and the wardens drag-
ged her away.

ARE WAITING
FOR CHARTER

The men who are back of the bank
that is to be established at the corner
of Bush and East Fourth streets have
been progressing with the preparation
and sending away of the necessary
papers preliminary to securing a na-
tional bank charter. The bank will
be known as the California National
Bank of Santa Ana.

There has been considerable talk on
the street as to who the officers of
the bank would be. The talk gener-
ally has it: John Cubbon, president;
W. F. Lutz, cashier; Elmer Crawford,
assistant cashier. The men who are
connected with the bank are main-
taining silence, believing it best to
make no further announcements until
they have received their charter.

FATHER'S DEATH IS NOT

Parting of Crippen and Ethel
Levene Was Pitiful—Girl is
Torn Away by Guards

LONDON, Nov. 22.—Dr. Crippen has
made a complete confession of the
murder of his wife, Belle Elmore Crip-
pen, according to the London Times,
which says the confession is a cal-
cious document replete with sordid de-
tails of the crime for which the deni-
st is to hang tomorrow.

It is understood that Dr. Crippen
arranged to give the Times his con-
fession to get money to care for
Miss Levene and her unborn child.
He stipulated that a portion of the
money go to Crippen's father in Los
Angeles, of whose death the prisoner
was unaware, the authorities de-
ciding to let him go to the gallows
without knowing the fact.

Dr. Crippen is reported as having
insisted in his confession that Miss
Levene did not know of the murder.
He declared her acquittal just.

DENIES CONFESSION
TO ETHEL LENEVE

Dr. Crippen spent his last day in
the condemned row of Bentonville
prison. He is apparently resigned to
his fate. He denies the rumor that he
confessed his crime to Ethel Levene,
but still protests his innocence.

John Ellis, the assistant execu-
tioner in charge of Dr. Crippen, today
prepared the gallows and measured the
prisoner to learn how far he must
drop. He guessed Crippen's weight
and tested the rope with a dummy
corresponding to the poundage.

Under the English law the execu-
tioner is also a prisoner and is not
allowed to leave the prison until his
charge is executed.

EXAMINATION
PHYSICALLY
PROVIDED
FOR

School Board Adopts Method
of Determining Defects in
School Children

NAMES DOCTORS
TO BE EXAMINERS

Results Bound to be Beneficial
to Children Who Are Found
Defective

The Santa Ana city schools have
adopted a method of physical exam-
ination of children whom teachers
are convinced have some physical
defect which tends to handicap the
children in their school work. At a
meeting of the Board of Education
and City School Superintendent
Cranston last night, Drs. Dryer, Ball,
Gordon and Burlew were named as
examining physicians.

At the meeting last night arrange-
ments were made for the work.
Teachers are to be given instructions
that will aid them in detecting phys-
ical defects in their pupils. Def-
ects of the ear, eye, nose and throat
will be watched for. It is well known
that oftentimes a child appears stu-
pid in a class, when as a matter of
fact the cause of his lack of under-
standing is simply that he has not
seen or heard all that was going on.
When the child's defects are known
he may be seated where he can see
and hear, or he may be given special
attention.

Such examination of school chil-
dren has been introduced in many
places with universal approbation of
parents and with surprisingly good
results to pupils. About twenty-five
per cent of the Los Angeles school
children were found to have defects
such as of the eye, ear, nose and
throat, which might be unknown to
the parent, and in many places the
per cent is much larger. The school
law provides for an examination of
this kind, and the system is bound to
result in much good.

Last night it was arranged for the
physicians appointed to examine
such pupils as the teachers, after
careful observation, may believe to
have defects. On the report of the
teacher, the superintendent will fix
convenient times for examinations to
be made of the pupils at the school
buildings. One of the doctors will
be assigned to each of the four gram-
mar schools.

Printed forms similar to those used
elsewhere will be furnished the
teachers and the doctors and turned
over to the superintendent after the
examinations, when the doctors' find-
ings will be sent to the parent, who
will be expected to take the child to
the physician of his choice for treat-
ment.

LAST BEET CUT
AS WHISTLE
BLOWS

At 4 o'clock this morning the
big whistle of the plant of the
Southern California Sugar Co.
gave a prolonged toot. The
1910 beet-cutting campaign
was completed.

The factory began slicing
beets on July 20. Since then
it has paid out \$300,000 for
sugar beets. The annual pay
roll of the factory comes to
\$100,000.

The factory has not com-
pleted its season's run, for it
will take a day or two longer to
run the juice of the sugar beets
that have been sliced through
the process. However, the
beets are all cut.

WHEN it is turkey time it's clothes time. Thanksgiving naturally suggests thoughts of feasting, of sports of "dressing up." It is a season of social and business activity, and when it is with us we should all be comfortably and correctly clothed.

Let us suggest that NOW while the season is comparatively young, that you become familiar with Benjamin Clothes, their high quality and their clever style. Possibly Thanksgiving has brought to your mind the question of purchasing an overcoat. Possibly a heavy suit would be more to your liking. R. M. Dungan Once Owned Indian Who Died Recently in Humboldt County

R. M. Dungan of this city has received word of the death of an Indian, near Ferndale, Humboldt county, of Prince, an Indian, who was bought by Dungan when the Indian was still a boy. That there is often considerable "myth" about the age of Indians is proven in this case by the statement of Mr. Dungan, written for the Ferndale Enterprise, which, among other papers, stated that Prince was of great age, no one knew how old.

Mr. Dungan has written the following:

"Indian Prince, or Shainnagauch, his Indian name, was an orphan living with his aunt in 1859. I had just established the first ferry on Eel River, known as R. M. Dungan's Ferry, or the Lower Ferry. In 1859 I bought the little boy and named him Prince. He was supposed to be about 11 years old and small for his age.

"I paid his aunt, she being the nearest relative, two pair blankets, two hickory shirts, a calico dress pattern and about 25 cents worth of beads, which was thought to be a big swap.

"When they brought him to my house he seemed to be half starved and entirely nude. I gave him pants, shirt, hat and shoes. He could wear all except the shoes. They were too awkward for him at first. He had hardly seen shoes before.

"He soon learned to run the ferry and make change accurately. He assisted me always, and sometimes he would run the ferry for days alone. He could not write the name of those who did not pay, but always remembered their names to tell me when I came home. If he ever took a nickel from me I never knew it, so I unhesitatingly say he was strictly honest.

"In the fall of 1865, when he was between 17 and 18 years old, he married Julia, a squaw twice his age. She worked a great deal for my wife. I furnished them a house to live in. About 1871 he and Julia separated. He married another squaw named Kitty. They had one child when we left there in 1875. I next saw them in 1892. They had several children then. The two oldest girls were then going to school and were quite bright and could talk good English. I saw them again in 1904, for the last time. Prince was then aging very rapidly, and looked much older than I. According to my calculation he was about 62 years old at his death."

LOCAL GROCERS SAY THE CLAIMS ARE VERY ABSURD

J. R. Newberry's Press Agent "Works" the News Agencies For Free Advertising

The subject of the cost of living is of absorbing interest and supreme importance, so that all apparently intelligent contributions thereto are eagerly read. The local grocers recognize these facts and are ready and willing to have their say, especially when people "throw up" to them the tergiversations of such economic oracles as J. R. Newberry of Los Angeles.

In last evening's Register appeared an article which came from Los Angeles through the ordinary news channels, in which Mr. Newberry, the wholesale and retail grocer, announces his intention of adopting a new system of doing business, whereby he will save the consumers twenty per cent on their grocery bills. Concerning this statement, C. W. McNaught said, this morning, that the utmost average profit of the average grocer is not to exceed seven per cent, therefore Mr. Newberry's claim is absurd. Mr. McNaught thinks Mr. Newberry must have been misquoted, or there has been some error or errors in transmission or printing, for the article is itself contradictory. Mr. Newberry is quoted as saying that "under the old system twenty per cent was estimated for delivery expenses." Mr. McNaught said that even in his comparatively small business the cost of delivery is not two per cent. Mr. McNaught points out that such articles as the alleged interview with Mr. Newberry, which are usually the product of a past master in the art of securing free advertising, mislead the public and make things extremely unpleasant and unfair for the retail grocer."

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, Ohio.

Sold by druggists, 75c. Take Hall's Family Pills for constipation.

Street and Dress Hats

As the season advances there is always an accumulation of hats in any millinery establishment doing the volume of business we do. Many of these hats might well be considered the cream of our stock by the average buyer, and as a matter of fact, they ARE among the best of our output. It is our policy, however, to reduce stock to the minimum before the season is too far advanced and with that end in view have gone through and have MARKED DOWN OVER FIFTY OF OUR FINEST AND MOST STYLISH HATS. VALUES IN MANY INSTANCES ARE CUT TO ONE-HALF PRICE.

Here's your chance for a new Thanksgiving Hat at a very small outlay of cash.

TWO BIDDERS FOR BUILDING BRIDGE TIED ON LOWEST BID

J. Wiley Harris Added to Park Commission—City May Purchase Oiler From Long Beach Man

It is not very often that bidders tie, but that is what happened last night at the meeting of the city trustees when bids were opened for building a bridge on West Fifth street.

A. E. Bird and E. D. Johnson, low bidders, each named \$1287. The next lowest figure was \$1638. The local men were between \$300 and \$400 lower than the lowest Los Angeles bidder. Bird was awarded the contract.

Bids Opened

Bids for the construction of a bridge on West Fourth street across the overflow channel were read as follows: Patterson & Smith, Los Angeles, \$1696; Mercereau Bridge & Construction Co., Los Angeles, \$1638; Arthur Bent, Los Angeles, \$2283; A.

E. Bird, Santa Ana, \$1287; E. D. Johnson, Santa Ana, \$1287.

The two Santa Ana men were low bidders, both at \$1287.

Trustee Thompson suggested that Bird and Johnson draw lots to see who should take the job. The two men, however, said they would leave it to the board. Bird said he could finish the job in six weeks. McNaught moved that the contract be awarded to Bird, and the motion carried.

Offer to Paint

The clerk read a communication from the Guarantee Roofing & Paint Co., in which an offer was made to paint the roof of the water works power house for \$78, to guarantee the work for five years. The offer was

taken under advisement.

Harris Is Named

G. W. Minter stated that some eight or nine years ago he, Mr. Rafferty and Mr. Spurgeon were named as the Park Commissioners, and that they had acted ever since. Mr. Spurgeon is anxious to turn the work over to some other person. Mr. Minter suggested that the board appoint one of its members to act on the commission.

Trustee Harris suggested Trustee Thompson for the place. Thompson suggested McNaught, and McNaught moved that Harris be appointed, he having a great interest in flowers and trees. McNaught's motion carried, and Harris was named.

Minter suggested that a cement curb be laid on Ross street on the west side of Birch park. Blodgett said that there is a movement to make the street narrower in order to give more parking space, and he thought it well to let the board curb remain for the present.

Minter said that the commission expects soon to lay out the addition to the park and have it planted.

May Buy Oiler

J. E. Ward of Long Beach proposed to the city to sell it one of his road oilers for \$600, offering to take the one the city now has at \$250. He said the city would save in oil waste the sum of \$100 on every carload of oil. The oiler is so arranged as to give the exact amount needed for every square yard of street.

Most of the trustees were familiar with the oiler, it having been used here. Trustee Thompson stated that an oiler is needed right now, to do some work on East Fourth street east of Grand avenue, and on other streets that have been recently graded. However, the offer of the Long Beach man could not be accepted unless bids were taken. Hence the clerk was ordered to advertise for bids.

"If it should rain hard we might not want to buy the oiler at all," said Trustee McFadden.

Ward agreed to ship the machine here and if after bids are opened the trustees decide not to take it, the machine may be shipped back, the city to pay freight both ways.

To Fix Rates

While at the convention of the California cities at San Diego, the Santa Ana city trustees learned that each city must fix gas and electric rates by ordinance once a year. Santa Ana has not been doing this, having no legal advice that such action was necessary. Last night the city attorney was instructed to prepare an ordinance fixing gas and electric rates for the next year. The ordinance will be presented Dec. 5 for first reading, and Dec. 19 for second reading. The rates need not be specified until Dec. 19. No word of what rates are contemplated was given last night. The citizens' committee investigating gas rates has not reported.

Ask P. E. to Pave

The city attorney was instructed to write to the Pacific Electric notifying it to pave its rights-of-way on West Fourth street between Parton and Baker streets with asphalt, and on North Main street from Santa Clara avenue to the north city limits with petroleolithic pavement.

Trustee Thompson said that he thought the city should proceed at this time to put down crosswalks at street crossings where cement curbs and sidewalks adjoin. Thompson was appointed a committee to make a report on the advisability of making the crosswalks of asphalt or cement.

Final reading was given the ordinance providing \$17 a year to firemen to cover wear and tear on clothing, the money to be used by the firemen as an insurance fund.

A Most Valuable Agent.

The glycerol employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and herbs. In solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerol acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchitis, and throat troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-over coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. J. H. Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerol:

"Indispensable to an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution it is one of the best manufactured products of the present time in its action upon indurated, disordered stomachs, especially if there is ulceration or catarrhal gastritis (enteric inflammation of stomach), it is a most efficient preparation. Glycerol will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

SANTA ANA HIGH SCHOOL INTERSCHOLASTIC CHAMPION

It looks easy to the students of Santa Ana High to determine where the championship of the Southern California Interscholastic League belongs. Looked at from whatever angle it looks the same. The only team of the league that beat Santa Ana was the U.S.C. Preps, when they scored a touchdown on a fluke and kicked goal; the Santa Ana kicker failing at goal after a hard earned touchdown, making the score 6 to 5.

But the Preps were beaten by Throop and Pasadena High, both of which were beaten by Santa Ana. Long Beach called off her game with Santa Ana, assigning as a reason a too heavy schedule. Early in the season she lost to San Diego 12 to 0. The next Saturday Santa Ana won a game on Russ Oval 3 to 0. Long Beach trounced San Diego in Long Beach, 20 to 0. Last Saturday Santa Ana overwhelmed the team from the far south, 35 to 0. The Santa Ana boys say that had they played

against Long Beach as they did last Saturday the port city team would not have made 20 points against them.

It looks just as easy from the standpoint of number of games won and lost. Santa Ana won four and lost one. The best any other member of the league can show is a record of at least one lost and one tied.

It may not look as plain to the other teams and they may figure a different result, but nothing could be plainer to the team of the inland city than that it has won the championship.

Coach Ratcliffe is well pleased with the result of the season's work, and more with the attitude of the boys of the team, off as well as on the gridiron.

As Santa Monica High called off the game scheduled for Thanksgiving Day, a game will be played with a team of college and ex-high school stars, led by Captain Collins of last year's Occidental team.

MODERN RAILROAD QUESTIONS AS DISCUSSED BY MR. RIPLEY

LOS ANGELES, Nov. 22.—General Manager Wells of the Santa Fe is in receipt of a book, "Modern Railroad Questions," edited by President E. P. Ripley of the Santa Fe system. The book is made up from the testimony gathered during the recent hearing before the Interstate Commerce Commission at Chicago, and is one of the most exhaustive studies of the question that has appeared in some time.

The conclusions drawn are, that the construction expenditure of American railways will never end; that modern railways are far from being safe for the public's use and that without additional income the demands for block signals, elevated tracks in congested cities, the abolishment of grade crossings, new stations, comfort and safety cannot be met, while the shortening of the railway budgets throughout the country owing to the difficulty of obtaining money from the bonding houses has cut heavily into the country's trade.

President Ripley also points out that the expense in labor and materials is gaining daily upon the earnings of the various roads.

As originally made up, the Santa Fe budget called for the expenditure of \$31,000,000 for work during the present year. Owing to the freight rate question and tightness of the money market this was cut to \$19,000,000 and even of this amount some \$10,000,000 was not spent.

"What a railroad wants," writes Mr. Ripley, "is taking more partners as stockholders rather than more creditors as bondholders, but under the present conditions this is hardly possible and in our sale of bonds we have had to sell at a total discount on all issues of about \$8,000,000. With a proper freight rate to guarantee earnings, this would not be necessary."

"There is a great deal said of the high living costs being the result of high freight rates, but the fact is that if the railways obtained the raises asked for, there is not an average family of five persons in the country whose income would be depleted \$1.00 a year through this change in rates. Take the question of shoes, the rate across the country is only about 1/2 cent a pair and the sale price is the same at the factory door in New England and on the Pacific Coast.

"Of each dollar earned by the railway company, practically every cent goes back to the public in one form or other—through labor or the purchase of materials."

Estelle Bird, Prima Donna with the Metropolitans.

AMUSEMENTS

The Metropolitans at the Bell Theater Wednesday Evening, Nov. 23

A delightful feature of the program to be rendered by The Metropolitans, appearing in a magnificent concert at the Bell Theater Wednesday night, November 23, is the appearance of Miss Estelle Bird, a prima donna possessing a voice of remarkable sweetness and beauty.

Miss Bird, who has toured the Pacific coast during recent years with several of the important musical organizations, including "The Prince of Pilsen," and "The Time, the Place and the Girl," is a decided favorite wherever she is seen, and her rendition of "The Rosary," "The Love Dance," from Madame Sherry, is a treat for those fond of music which is really good.

An innovation in the way of accompanying the artists will be a

magnificent concert orchestra consisting of thirty accomplished young ladies, each one an instrumental soloist, which insures a musical program of extraordinary brilliancy. The Ladies' Philharmonic Orchestra will play under the direction of Douglas Allen, and the program will comprise the latest classic, as well as popular compositions.

THE OREGON SYSTEM DEFENDED

A great deal has been said in the western papers of late against the new government system adopted by Oregon and generally known by the name of that state. The charge has been made that the laws are too complex and the powers conferred by the initiative have brought forward so many fads and kept the voters so constantly at the polls that they have become thoroughly disgusted. Quite a large percent. of the papers of the state have supported this view of the conditions prevailing and the people are known to be divided as to the merits of the measures proposed for their political advancement.

Senator Bourne of that state was called upon last Friday to address the American Academy of Political and Social Science at Philadelphia and he took advantage of the opportunity to come to the defense of the "Oregon System." He took the extreme ground that it was "the best system of government in the world" and did not hesitate to laud every feature of it to the skies. He began by referring to the two as "the keystone of the arch of popular government," by the means of which the people may accomplish such other reforms as they may desire. Regarding the initiative he argued that it develops the people by compelling them to study public questions and by placing upon them responsibility for all the laws. It gives every man an opportunity to submit his ideas to the people, provided a small per cent. of them will support his desire to submit them to vote. In this, the Senator thought, there was tendency to elevate all the people to the plane of the most advanced.

It is needless to point out that the speaker is an extremist and his advocacy must be regarded in the light of that fact. The system is still too new to be thoroughly proven but it is right in line with what is regarded as the best thought on government and may be expected to work out some changes in the old forms which the other states will be more than willing to accept.

CALIFORNIA LEADS

A portion of the census which promises to be of especial value to the west and especially in California, the collection of data regarding irrigation, is still in progress. Some of this information was taken by the farm enumerators in their regular canvasses and the department is adding to it by correspondence with the owners of ditches. If all the needed information is secured, the immense irrigation projects in the different sections should enable this state to lead all the others in the reclamation and cultivation of lands by that means. A little reflection will convince anyone of the value of a complete showing of these facts in the next census report. It will be a guide to the constantly growing class of people who are looking for homes in the country where they can be assured of a comfortable living without being subject to the ordinary fluctuations in rainfall. The people to whom these last communications by the department were addressed have it in their power to do a great work for their state by simply answering the questions fully and at once.

To the New York politicians one of the wonders of the modern world is the support given by "Big Tim" Sullivan to the cause of woman's suffrage. There is nothing of sentiment in his advocacy, as will be seen from the following statement recently made by him: "A half dozen years ago, if you watched the crowds going to work, you saw one woman to twenty men. Now the numbers are almost equal. If women have to work for their living they need all the support and protection they can get, and I'm going to help them get it." It is said that other politicians of the same school are beginning to see the wisdom of getting in line to receive the benefit of the new votes when they come in.

If we may judge by the following in a recent issue of the Bee, the Sacramento jail must be a pleasant resort: "As the rats desert a sinking ship, so the prisoners in the city jail

They hope to escape before the walls fall upon them; otherwise they prefer to kill themselves than to be killed." WHAT CAUSES ECZEMA?

—We have had so many inquiries lately regarding eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch. Because—D. D. D. starts the cure at the foundation of the trouble. Because—It cleanses, soothes and heals the skin.

Because—It enables Nature to repair the ravages of disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema Cure.

Birthday Party

(Mrs. Nellie McTaggart)
Quite a crowd of W.R.C. ladies sur-
prised Mrs. Scammon at her home on
Lyons street, last Thursday after-
noon, the occasion being her birth-
day. One lone man, Commander
Buell, accompanied the ladies. But,
as, in times past, he had faced the
galling guns of the enemy, so on
this occasion he bore himself like a
hero. Conversation and fancy work
filled out the pleasant afternoon.
Cake and chocolate were served be-
fore the guests departed.
Mrs. Scammon received several
presents and a shower of birthday
cards, and in her home, surrounded
by the flowers she loves and tends
so faithfully, and whose blossoms
brighten the lives of the sick and
shut-ins, the ladies wished her many
happy returns of her birthday.

At the Nickey Home
On Sunday the lovely home of Mr.
and Mrs. F. P. Nickey was the scene
of a family gathering in honor of

the joyous Thanksgiving season.
With the artistic results always
achieved by Mrs. Nickey, the spa-
cious rooms were decorated with
plants and flowers, the dining
room, where dinner was served at
1:30 o'clock, being particularly
cheerful.

Two tables were spread for the
Thanksgiving feast, one being de-
voted especially to the children. On
each side was an inviting center
piece of fruits and nuts piled high
in a pretty basket. Only members
of the family circle being present, the
event was altogether informal, and
the seven-course turkey dinner was
enjoyed with peasantry and mirth.

Those entertained by Mr. and Mrs.
Nickey were Mr. and Mrs. John
Spencer of Los Angeles, Mr. and
Mrs. McKenzie and daughter, of
Long Beach, Mr. and Mrs. E. B. Tra-
go and two children, and Mr. and
Mrs. Walter Congdon and son.
Tonight Mr. and Mrs. Nickey en-
tertain the Finch Club, of which
they are members, with a dinner and
evening of finch.

Travelers With Mrs. Carden

The Travelers Club No. 1 met yester-
day afternoon and read as usual
from the Travel Magazine, besides
enjoying the reading of a short story.
There was a good attendance at the
meeting, which was held at the pleas-
ant home of Mrs. L. J. Carden.

Following the study hour, the hos-
tess served refreshments appropri-
ate to the Thanksgiving season,
and over the appetizing viands a so-
cial hour was spent.

A Jolly Party

One of the jolliest parties of the
season was that enjoyed by the
young ladies of the Crookshank-Bea-
ty dry goods store last night.
After closing hours, the merry
girls wended their way to the home
of Mrs. Eberlein at 416 French
street, where a delightful spread was
served, each young woman contrib-
uting.

The dining room was decorated
with pepper boughs, and the table
was gay with red geraniums and red
ribbons. Dainty place cards were at
each place, and attached to ribbons
leading from the center of the table
were toast cards.

At the close of the feast, Mrs. Eber-
lein acted as toastmistress and
many witty responses were given.
The company then adjourned to the
living room, where whist was played
and an impromptu musical program
enjoyed. Misses Anna Witt and
Truscott and Mrs. Eberlein gave vo-
cal numbers and Miss Brace con-
tributed instrumental music. Inter-
esting contests and conversation

helped round the delightful evening.
Those in the party were Mesdames
Eberlein, Lillian Bowen and J. C.
Varlie; Misses Dierker, Anna Witt,
Ruth Pettz, Margaret Truscott, Nell
Burson, Gertrude Ellsworth, Bessie
Annim, Lou Morgan and Brace.

AN UNUSUAL GUARANTEE

—It is very unusual to guarantee a
cooking fat, but your grocer is author-
ized to make you this unqualified offer
—If you do not find Cottolene perfect-
ly satisfactory, he will cheerfully re-
fund your money.

There is a reason why he can do
this. Cottolene is purer and more
wholesome than lard or other cooking
fats; moreover, it is packed in air-
tight pails, which keep it fresh inde-
finitely.

You wouldn't buy so-called "fresh"
eggs when you could get guaranteed
fresh eggs at practically the same
price. Why, then, take chances with
other cooking fats, when Cottolene is
absolutely guaranteed?

Funeral of Mrs. S. A. Morrow
Mr. and Mrs. J. G. Morrow are
doubly bereaved. Two months and
three days ago they followed from
Trinity M. E. church, South, Los An-
geles, to Rosevale Cemetery, the
body of Mr. Morrow's father. Yes-
terday, from the chance of the same
church, they joined the grief stricken
throngs that carried the mother, Mrs.
S. A. Morrow, and tenderly laid her
beside the new-made mound where
her husband is sleeping.

As announced in the Register yester-
day, Mrs. Morrow died in Los An-
geles, Friday, Nov. 18, at 7 o'clock
p.m. She had been ill for some time
before her death.

PERSONALS

Miss May Haney returned yester-
day from a several months' stay in
Los Angeles and the East. While at
her old home in Pennsylvania, she
was recently called West by the se-
rious illness of a close friend at San
Diego. She arrived in time to be
with her friend only a short time be-
fore her death. Miss Haney is now
at the Rutgers.

Mrs. Robert Anderson returned
Sunday morning from an all sum-
mer's stay in Ohio. She is feeling
well after the change of climate and
reports a delightful visit with friends
and relatives.

William Schimmele arrived here
Sunday from Sacramento and has
taken the place of Laurence Bristol
as linotype operator on the Blade.
Mr. Schimmele brought with him
his bride, the wedding having taken
place only last Tuesday in the cap-
ital city. They are at the Keiser.

Mr. and Mrs. Binford of Kansas,
accompanied by Mr. Binford's sister,
Miss Binford, have been visiting
their cousin, Mrs. I. D. Mills. They
left last evening for Long Beach,
where they will visit other friends
and where they were the guests of
honor at a reception last night.

Mr. and Mrs. H. S. Hadsall will re-
move to Anaheim on Dec. 1. Mr. Had-
sall's duties as superintendent of the
new sugar factory necessitating his
residence in that city.

Mrs. Isabella Churchill, who last
night addressed the Present Day
Club on Suffrage for Women, is the
guest of her daughter, Miss Isabel
Churchill, who is employed in the
Santa Ana city schools.

Mrs. C. W. Burns went to the city
this morning.
Miss Sue Perry spent last Saturday
and Sunday with her sister, Mrs. A.

A FINE ADDRESS ON SUFFRAGE FOR WOMEN

The regular session of the Present
Day Club held last evening at the resi-
dence of Mr. and Mrs. L. P. Hickox,
was one of the most delightful and
profitable in the history of this or-
ganization, the program of the evening
being an address by Mrs. Isabella
Churchill, former state president of
the Colorado Federation of Women's
Clubs. The speaker took for her
subject "Suffrage for Women" and
spoke from an experience of seven-
teen years as a resident of a state
where women are accorded full politi-
cal privileges. Mrs. Churchill is a
woman of striking personality and
graceful speech, and she won the en-
tire sympathy of her audience as she
described from first hand knowledge
the workings of the equal suffrage law
in that state, and the beneficent re-
sults both to women and to the com-
munity.

She dealt with the topic from the
broad point of view as a logical step
in the development of democracy and
as an educative influence, rather than
as a mere agency in the reform of
social and political conditions, import-
ant as that may be.

Equal political rights tend to de-
velop common intellectual interests
between husband and wife and to fos-
ter that deeper companionship which
depends upon the number of points
of intellectual contact. The children
of the family receive a twofold educa-
tional influence along the line of civic
questions and duties from having the
mother interested in these questions.

Many further aspects and points of
interest were developed in the discus-
sion which followed the address, and
the meeting closed with a very hearty
vote of thanks to Mrs. Churchill for
her admirable presentation of the sub-
ject.

RESOLUTIONS ADOPTED BY MINISTERIAL ASSOCIATION

Whereas Providence has called our
brother, Rev. J. Herndon Garnett, D.
D., pastor of the First Baptist church
into the larger service of Christian
education, and

Whereas, he is soon to sever his
pastoral relation with the congrega-
tion to which he has ministered for so
many years, we, as a Ministerial As-
sociation, desire to record our high
appreciation of him as a brother min-
ister, our recognition of what his
more than ten years of service of the
Master has done to build up Christ's
cause in his own congregation; and
to establish and extend the larger in-
fluences, intellectual, social, moral
and spiritual, that make for the up-
lift of humanity.

We would also bear testimony to his
interest in the Ministerial Association,
and declare our recognition of his ser-
vices to the community in all things
that make for civic righteousness.
Our hope is that Brother Garnett
may continue to dwell in our city and
continue to co-operate with us in the
Master's service as he may have
time and opportunity.

Our prayer to God is that in his new
field of labor he may be abundantly
blessed and may be a great blessing
to the community.

The Farmers & Merchants National Bank is in every sense a banking house interested in the welfare of Orange county and its citizens. Anything in the line of banking we are ready to talk over with you.

the home of Mr. and Mrs. Bonney, North Bush street, on December 17. The following excellent paper was read by Mrs. M. Nisson:

The Winter Flower Garden

This being census year, everybody is bragging about how much their town has grown, some even exaggerate more or less, but the time is coming when we shall have sense enough to brag the other way and tell exultingly how many people have left our crowded cities and taken up their abode in the outlying farms and villages, where they can have an abundance of good air and blessed sunshine and their own little plot of ground to dig in. The Lord knew what was best for man when he placed our first ancestors in a garden, instead of in a flat in a city apartment house.

It would occupy too much time to speak of both vegetable and flower gardens, so woman-like I have chosen flowers.

The old song asks, "What is home without a mother?" But the mother asks, "What is home without a lawn and flower garden?"—a barren place at best. True, both require work, but the health and pleasure which they give lightens the drudgery and pays for the hours of toil.

The love of flowers is akin to the love of children and the man or woman lacking in this love, is a selfish clod. Flowers have become a means of extending sympathy to the sick and afflicted, for they help the sufferer on his bed of pain to while away the tedious hours, and they cheer the hearts of those who have been bereaved when words seem but empty phrases! And the woman who has at hand in her own garden, flowers with which to cheer the sick and to fashion beautiful bouquets or emblems for the dead can do much to soothe the sorrow of her community.

I have intimated that one who does not love flowers has something wrong with his heart, but I take that back, for perhaps his lack is due entirely to the fact that in his childhood no one taught him to see the beauty of the unfolding rose, or the lesson of the resurrection as shown in the lily's bulb. Certainly, there is no better way of teaching a child this essential doctrine of Christianity than by watching an ugly brown bulb change into the beautiful lily, that symbol of the resurrection with which our churches are so fittingly adorned at Easter time. Let us teach our boys and girls to love the beautiful things in this world of ours, and not value things only by the standard of the almighty dollar.

Only a few days ago a Santa Ana woman who has a part of her garden devoted to chrysanthemums, was carrying a beautiful bouquet of them to a friend in Los Angeles. Another woman on the car began talking to her about them and remarked that she had tried raising chrysanthemums but couldn't make them pay, and asked, "Do you find there is any money in them?" "No," was the reply, "I don't try to sell mine." "Don't try to sell them, why, what do you raise them for?" In her desire for

money, this woman had entirely lost sight of their real value. To be able to combine financial profit with the pleasure of raising flowers, is a fine thing, but the advice given to the children who raised flowers for the chrysanthemum show this fall was good, "Don't feel disappointed if you don't get a prize, for you will have lots of pretty flowers to enjoy anyway."

Referring to the start made to interest our school children in the raising of chrysanthemums, I am sure you will all agree with me that it was a start in the right direction, and we ought to tell our school authorities that we would like to see the good work go on. Why should not the children be instructed in the best methods of raising roses, violets, carnations, sweet peas, and the various bulbs, which bloom here in California in such wonderful profusion! All of learning is not in books, and in schools where school gardens have already been incorporated, the health of the children has been much better than before such work was undertaken—a thing of no inconsiderable importance to us as a people. Indeed, the value of elementary agriculture in the common schools is fast becoming recognized in this country and each year one or more states adds it to its course of study. And why should it not be made an elective study in all our high schools? One extra teacher in a high school could give instruction in agriculture, open as part of an elective course, along with most of the other scientific subjects. Some of the state universities are urging the placing of agriculture in all the high schools, while others favor the establishment of separate agricultural high schools. Many pupils now drop out of school because the ordinary high school does not give them the training they want. Therefore agricultural high schools would be worth all they cost if they were attended only by those who otherwise would have dropped out of school in the grammar grades. What is the matter with Orange county having such a school? It is noted as being the best adapted for all kinds of intensive farming of any county in the state. "Agriculture is the one occupation which is not now overcrowded and in which there will be a place for at least twenty years to come for every intelligent, strong man to make and keep himself independent."

In San Diego, a Fifth Grade boy of the Florence Heights School has just organized the fifth Agricultural Club of the schools of that city, under the direction of the Supervisor of Horticulture for San Diego county. All Pasadena has lately been interested in the big flower show at the Hotel Maryland. Other places are waking up and why not Santa Ana. That this county is an ideal spot for the culture of roses has been proven by those who make this their business and who annually ship many carloads of rose plants propagated out-of-doors, to eastern florists. On, yes, flowers do pay even financially, if you know how to do it! Here in California we have so many roses in our gardens that we expect them to bloom every day of the year and twice on Sundays, but they really should have a time to rest. The best time is during the latter part of the summer when the bloom is poor anyway. Withhold the water from them, giving them just enough to keep the wood from shriveling; then prune them well, for if you spare the shears you will spoil the rose. Then fertilize and soak the ground thoroughly and nature will do the rest. Never water roses at night and not oftener than once in ten days. A plant infected with mildew or red rust should be dug out. The hose should be turned on the green aphids, but the lady bugs will get them anyway sooner or later if they don't watch out and the plant will not be harmed.

If you plan right, you may have beautiful roses all through the year for the procession of the roses is a delight to the gardener, and even the children should know them by name. Bulbs should be planted at once and also sweet peas if you wish early blossoms. Other plants such as pansies, Shasta Daisies, carnations, and scarlet flax should be set between now and Christmas. And while you are thinking of Christmas, don't forget that handkerchiefs, neckties and jewelry are not the only presents! Why not give beautiful plants, shrubs, trees, or whole sets of bulbs. Take the Easter lilies, freesias, hyacinths, tulips, narcissus, and amaryllis, what a joy to any girl or her mother to have a dozen of each. In setting bulbs, don't forget that all bulbous plants are partial to a rich loamy soil which must be kept free from weeds. Narcissus bulbs should be reset every three or four years. Each child should have a garden of his own if possible, and he should be encouraged to give it the best of care. A study of the laws of nature will teach him that, "Whatsoever a man soweth, that shall he also reap," in his life as well as from the soil.

M: final advice to you is to put

your garden all in now, and you may "expect to raise everything usually seen on a first-class spring hat."

—It's worth almost as much as your life; how much is that worth? The Rowley Drug Co. has a remedy that keeps the stomach right and makes it right when it goes wrong.

MI-O-NA is the name of the great stomach remedy, and the Rowley Drug Co. guarantees it to cure the following stomach ailments and symptoms, or money back.

Upset stomach, pain in stomach, belching of gas, biliousness.

Heartburn, sour stomach, lump of lead stomach, after dinner distress.

Nervousness and headache caused by stomach derangement.

That all-in feeling in the stomach after a night of sociability.

Bad effects of overeating or drinking; sea or car sickness.

Vomiting of pregnancy, or any stomach distress.

Remember, money back if it fails, at the Rowley Drug Co., or leading druggists everywhere, and the price is only 50 cents a large box.

and gently reared, women will find in all the seasons of their lives, as maidens, wives and mothers, that the one simple, wholesome laxative remedy, which acts gently and pleasantly and naturally and which may be taken at any time, when the system needs a laxative, with perfect safety and really beneficial effects, is Syrup of Figs and Elixir of Senna.

It has that delicacy of flavor which is so refreshing to the taste, that warming and grateful toning to the stomach which responds so favorably to its action and the laxative effect which is so beneficial to the system when, occasionally, its gentle cleansing is required.

The genuine, always bearing the name of the California Fig Syrup Co., may be purchased from all leading druggists in original packages of one size only, price fifty cents per bottle.

LOS ANGELES PRODUCE MARKET

Tremendous activity on the market marked the opening of the week. Yesterday was one of the busiest days ever experienced in Los Angeles in the produce business. To handle much of the great volume of trading, a number of the big shippers were forced to work some of their employees on Sunday to fill the outside demand, which seemed to rush in over Saturday from points within three or four days of the local market. The last strawberries for New York were sent out Sunday morning. Other points in this section were calling for this fruit extensively with the result that the market on berry jumped as high as 16 cents a basket, the highest they have been since last winter. The average price

on good berries hovered around 12 and 13 cents. Celery was one of the products on the advancing list. There is scarcely sufficient celery to supply the demand if it prevails for another two or three days as at present. From \$2 on fairly good stock the price went up as high as \$2.50 and some of the dealers were asking \$2.75 per crate. Cranberries are all up to \$10. Dealers who waited, expecting a slight drop on account of the heavy arrivals expected will be disappointed. Those who put off until yesterday morning had to pay the new quotation.

There was some cutting of turkey prices. This is the first decline that has been registered and is not as yet a real decline but merely the endeavor of several dealers who have bought too many turkeys to get rid of their surplus. Live stock was easily obtainable at 26 cents a pound and occasionally at 25 cents, running from there up to 28 cents in a wholesale way. Dressed was held at 28 to 30 cents.

Staple commodities were all in good call. Egg receipts were 82 cases. Kansas extra select were quoted at \$8.50 per case, storage to date paid. There was no change in any quotations of this product.

Eastern creamery extra sold at 31½ cents and firsts were quoted at 1 cent below that figure. Local moved freely. Receipts were 14,928 pounds.

Cheese arrivals were 1774 pounds. There was a fair call for Northern fresh and several of the fancy varieties. In other lines offerings were light.

Potato receipts were 2982 sacks. A car of choice Highlands jobbed at \$1.20 and dealers were asking more than that for anything like fancy stock. Russet spuds are in good call. The general tendency of prices in this line continues upward.

Onions were in fair call. The reported receipts were 1090 sacks. A flat price of \$1.75 is registered. Bean arrivals were 709 sacks. The call for beans was good in two varieties, pink and small whites. Sweet potato arrivals were 313 sacks. There are a lot of these on hand and the demand was good, but not sufficiently heavy to advance prices.

Barracuda all the way from San Luis Obispo were one of the features of the fish market. Halibut and mackerel were plentiful. Small fish were a trifle scarce.

taxpayers were opposed to the trustees contracting to have children brought in from outside in rigs daily at the expense of the district. According to street rumors the school had one or two bitter enemies.

A party who saw the building soon after the fire broke out says it seemed to be burning in two or three places. A director of the High School district says he believes some enemy of the school set the building on fire. If sufficient evidence can be obtained an arrest may be made soon.

At the time of the fire it was stated that the blaze broke out in the heating furnace, but this is denied by the janitor and a director. They say it was in perfect working order and that there was no fire in the furnace after 10 a.m., on the morning before the building was destroyed, and, it is claimed, even today the furnace is in good condition.

The officers have their suspicions pointed to one particular man, whose talk since the fire has been erratic and his story a little "queer." The man makes no secret of his bitter hatred of the schools.

EDITOR OF "APPEAL TO REASON" TO GO TO PRISON

ST. PAUL, Nov. 22.—Fred D. Warren, editor of Appeal to Reason, a Socialist paper published at Girard, Kansas, must pay a fine of \$1000 and serve six months at Fort Leavenworth under a decision by the United States Circuit Court of Appeals at St. Paul yesterday. The decision affirms the sentence imposed by Judge Pollock of Kansas. Warren was convicted of using the mails for the circulation of scurrilous, defamatory or threatened language on the outside of an envelope or wrapper.

DYSPEPSIA OR SOUR STOMACH

Heartburn, Indigestion, Gas or
Headache Go In Five
Minutes

—Why not get some now—this moment, and forever rid yourself of stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapepsin to start the digestive juices working. There will be no dyspepsia or belching of gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapepsin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take gas from stomach and cleanse the stomach and intestines, and, besides, one single dose will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapepsin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all stomach misery is waiting for you as soon as you decide to take a little Diapepsin. Tell your druggist that you want Pape's Diapepsin, because you want to become thoroughly cured this time.

Remember, if your stomach feels out of order and uncomfortable now, you can get relief in five minutes.

MEXICO IS IN THROES OF VIOLENT REVOLT

ernment forces are hard pressed. Although it is practically impossible to get accurate reports from the interior the belief is growing here that the revolution is more extensive than is known. Messages from Laredo confirm the report of fighting in Acambaro and Guantajuato, where twenty-seven rebels were killed.

Secret advisers say five hundred of the Chihuahua garrison have promised to desert when the insurgents attack the city. Other reports say the government has discovered the disloyalty of several hundred of the garrison.

FEDERAL TROOPS CHASING DEFEATED INSURRECTIONISTS

EL PASO, Nov. 22.—After an all night fight near Parral, the revolutionists were defeated by Federal troops, according to information today. Troops were sent yesterday to quell the threatened outbreak. The government casualties were slight. The rebels lost a score killed, with many wounded. The Federal cavalry is pursuing the retreating insurrectionists.

RUMORED THAT 300 PERISH AS BRIDGE IS DYNAMITED

EL PASO, Nov. 22.—The bridge between Chihuahua and Madera was dynamited today and three hundred Mexican soldiers were killed and wounded, according to an unconfirmed report here. Verification is impossible because of strict censorship of the wires.

UNITED STATES TROOPS PATROLLING BORDER

EAGLE PASS, Texas, Nov. 22.—Two troops of the Third United States Cavalry arrived today to enforce the neutrality agreement on the border. They have orders to break up all gatherings of armed men on American territory and prevent the crossing of armed forces into Mexico.

Much rioting is reported along the border. It is not believed there are sufficient troops here to prevent the Mexicans crossing into Mexico in large numbers at isolated points of the boundary.

19 DESERTING OFFICERS WERE SHOT THIS MORNING

ORIZABA, Nov. 22.—Nineteen Federal officers who deserted to the revolutionists were captured and shot this morning. The situation is alarming. Federal reinforcements are enroute.

AMERICAN SAYS VERA CRUZ AFRAME WITH REVOLUTION

LAREDO, Tex., Nov. 22.—Harry Archer, agent for the Santa Fe railroad at Torreón, arrived here today. He reported the manufacturing town of Santa Rosa and Rio Blanca in the state of Vera Cruz as aflame with revolution. The walls are placarded with "Down with Diaz and his Yankee

NEVER TOLD REASON WHY

A. D. Kelly Who Lived on Beach
in Hut for Years Goes
to Kern

Newport News. A. D. Kelly left for the McKittrick oil fields the first of the week, where he has property. Mr. Kelly is one of the oldest residents of this vicinity and was known by nearly everyone as "Old Charley." He has for years made his home below Corona del Mar, on the beach in a small hut. He is quite wealthy and it has been a matter of much speculation what induced him to live at such a lonely place. It has often been asserted that he was in the employ of the Federal government in the capacity of an immigration inspector to keep contraband Chinamen from landing inside the bay, but nothing could be gotten out of him on the subject. He was a first rate hunter and fisherman and could often be seen sailing a little punt around the lower bay. He expects to remain in Kern county about two years.

City Attorney Bishop was down Thursday on the Hemstreet case. There were originally two charges against Hemstreet for selling liquor contrary to city ordinance. The first of these charges was dismissed on account of the failure of the prosecution to secure a jury. The second case was set for Wednesday and Mr. Hemstreet appeared in court and agreed on Tuesday, November 22, as the date of the new trial.

A big tide rip was running on the west side of the wharf Monday evening but the swirling water was full of fish. R. S. Shafer made a lay with his seine and although he pulled the net in two he landed 1100 pounds of smelt. Williams and Schwall made a haul later but broke a haul line and had to pull the net in by one end without any fish.
